## Large Animal Rescue for the Rescue Professional

### Course Announcement

**Dates:** March 24-25, 2009 *or* April 7 & 8, 2009  
**Time:** 9:00am to 4:00pm each day  
**Location:** MSPCA at Nevins Farm  
Rogers Family Education & Training Room  
400 Broadway  
Methuen, MA 01844

**Instructor:** Roger Lauzé, Equine Rescue & Training Coordinator of the MSPCA  
Equine Ambulance

**Description:** This two day course is designed to give rescue personnel a basic knowledge of horse and livestock behavior and large animal rescue techniques. There are two components of this training as you can see by the attached outline. The first part of the classroom sessions will give the basics of horse and livestock behavior and an insight into body language of the different species. The second part of the classroom will show in detail the theory and proper use of the rescue equipment listed in the outline.

The practical aspect of the course is to be able to put the basics taught in the classroom to work in a controlled environment. We will demonstrate the proper handling techniques and the participants will have an opportunity for hands-on with the animals. The practical with the rescue equipment will involve the use of our training mannequin "Lucky the horse". Using Lucky gives us the ability to give every attendee the chance for hands on with the rescue equipment. We are able to reenact different rescue scenarios using our rescue equipment and the equipment found on fire department rescue vehicles.

This course will lay the basics down for large animal rescue and familiarize the participants with the rescue equipment that is available to them and the equipment that they may already have that can be used in these rescues. This is the first step in preparing responders to handle large animal rescue.

**Testing/Evaluation:** Successful completion of this course includes full attendance and participation in the practical segment of the course, allowing participants to apply techniques learned. Students will receive a certificate of completion.

**Registration Process:** Two-day course fee is \$60. All travel and meal expenses will be the responsibility of the attendee. Space is limited to 30 participants, and advance registration is required. Participants may register by completing the attached registration form.
